

Jeff Stone's 2010 Cal Senate election campaign contributors

34 are confirmed Scientologists (including Nancy Cartwright, the voice of Bart Simpson!), Nine are suspicious donors (Out of state, or possible Scientology association), four are considered "illegal" donations and about a twenty "interesting" donors.

Among the “interesting” donors, nine have the last name “Foutz” + one Aaron Helper works with the Foutz. Seven have the last name “Minor” and Mr. Larry Minor Sr. got in trouble in the past (twice) for illegal political contributions.

It is not illegal for scientologists to donate to Jeff Stone, of course. However, it appears that there was a lot of influence applied by Corporate Scientology to coerce people to donate and THAT would be illegal. Sometimes we see multiple small donations from people that live out of the district. The Mormon church got in trouble for doing something similar with Prop 8 and had to pay a fine. There has been very little action from the authorities except a fine to Jeff Stone for filing the paper work late.

In addition, if executives in CoS are indirectly making donations from Church coffers (because they earn no salary), then that's illegal too.

Those are some of the things we must expose. The sooner this is done, the sooner the human right abuses at Gold Base will end. If you are aware of illegal activities by any of these donors, please advise. The local press in Riverside has been silent.

This info, once properly vetted will be submitted to <http://www.fppc.ca.gov/>. There's a meeting on June 9. I will announce these findings at the next Board of Sups meeting of June 7, 2011.

Illegal campaign financing need to be brought to the light of day and Scientology's manipulation of our politics needs to stop. Please distribute far and wide.
